Linen Usage and Care

Please make sure that care is used when removing linens, especially from tables with candles. Hot wax can severely damage linens. Be sure that candles are extinguished and that the wax has solidified before they are removed. If linens are wet, please air dry before placing in the mesh bags. This will help avoid mildew damage.

At the conclusion of your event, all linens should be placed in the mesh bags provided and returned to Gala Affairs Party Rentals or if we are picking up, then bags should be left at our event site.

Note 1: Above prices are for linens that are in our inventory.

Note 2: Special order linens could be more expensive.
